

Caprock Developments, a quality leader since 1953, is pleased to offer you these superb instruments.

Inspection Loupes

With three element, color-corrected glass lenses, these loupes have distortion-free viewing from edge to edge. All feature adjustable focusing and threaded locking rings to maintain focus. The lenses of the **FM** loupes fold into the base to provide protection for carrying. Other styles are more appropriate when the magnifier is kept at the viewing area. The **FM-12W**, **PH-12** and **SW-12** have extra wide 19mm lenses.

10X LED Illuminated Magnifier

LM-10: Equipped with a 10X flat-field lens (25mm diameter) and built-in illumination from two bright-white LED lamps. You'll see fine detail and micro-printing on prints, currency, stamps, coins, and photos and more. The ergonomically-shaped body fits comfortably into your hand. Uses two AAA batteries, included. Long battery life thanks to LED technology, compared to incandescent bulbs. **Only \$46!!**

NEW!! 6X Wide Field Magnifier

WF-6: This brand-new magnifier offers distortion-free 6 power magnification and lots of room underneath! The double aspheric design guarantees excellent clarity and sharpness across the 33mm diameter lens, while the cutaway base allows 180° access to the subject. The focus is fully adjustable. Introductory price is just \$42!!

Linen Testers

Linen testers are the workhorses of magnifiers: inexpensive and rugged. Opening refers to the square viewing area at the bottom. The **MLT-6** and **MLT-9** have metal frames and double glass lenses. The **BLT-4** is a giant-sized 6 inch tall plastic magnifier with a glass lens. The **CLT-10**, has brush-chrome finish, with spring-loaded "snap-open" and is supplied in a vinyl case. The **PLT-8** is an economical plastic linen tester. It can be imprinted from your camera-ready art, at no additional charge, when ordering 100 or more pieces.
